3rd International Congress on Inflammation

February - March

26 **1**

2023

Children's Medical Center

Immunology, Asthma and Allergy Research Institute
Gharib St. Keshavarz Blvd. Tehran, Iran

About The Event

The purpose of this conference is to hold an interdisciplinary approach with a focus on bridging between basic and clinical science to discuss the challenges in diagnosing, treating, and preventing the global disease COVID-19 and the deadly inflammation caused by its damaging function. In this conference, discussing different aspects of virus impact on the various organs in the body can be challenging. The conference will be held in the main hall of Children's Medical Center from 26 February to 2 March 2023, by the Immunology, Asthma, and Allergy Research Institute (IAARI) involving researchers and professors from universities, research institutes, and scientific associations throughout Iran and the world.

Our Partners

3rd International Congress on Inflammation

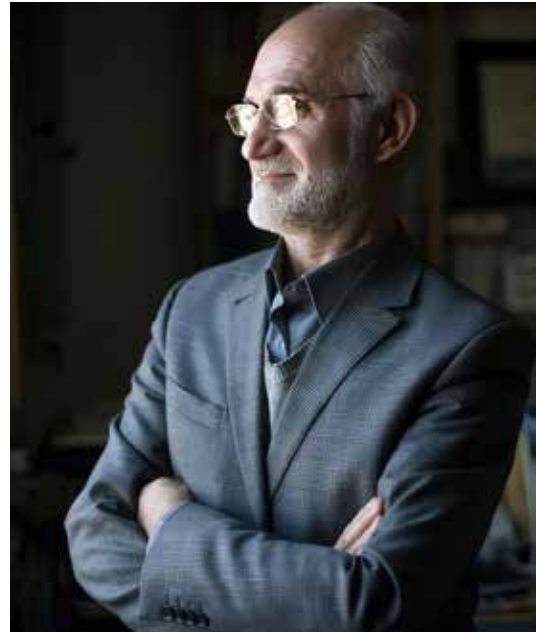

The Immunology, Asthma and Allergy Research Institute (IAARI) will organize the conference in collaboration with researchers and professors from a number of universities, research institutes, and scientific associations across Iran and the world from February 26 to March 1, 2023.

Dean's Message

Dear Respected Colleagues,

Welcome to the 3rd International Congress on Inflammation (ICI). We are delighted to host this event in line with the recent changes due to the new pandemic and with an approach to severe inflammation in COVID-19. The event is organized by the Immunology, Asthma and Allergy Research Institute (IAARI) in collaboration with several basic and clinical research organizations. It will be held as both on-site and virtual sessions. At the 3rd ICI, recent scientific achievements will be discussed by the leading professors, scientists and researchers focusing on different aspects of the inflammatory outcomes of COVID-19, especially in the post (long) COVID-19 conditions. This exchange of ideas and the articles presented at the congress can add new perspectives for future research, reducing the burden, and ultimately improving the patients' health and quality of lives. I hope that with the hard work and planning of the executive board and esteemed members of scientific and executive committees during the current year, we can have a fruitful gathering of scientists, researchers, doctors, specialists, and students of basic and clinical medical sciences from Iran and around the world. The congress will be held from February 26 to March 2, 2023 in the main hall of Children's Medical Center in Tehran, and will include oral and poster presentations, which will also be accessible online. Finally, I sincerely anticipate your invaluable contributions to achieving the goals of this scientific and social endeavor.

We look forward to seeing you and welcome you in advance.

Prof. Mostafa Mo'in
President of ICI-2023

International Speakers

Prof Ian Adcock
London, United Kingdom

Faculty of Medicine, National Heart & Lung Institute
Professor of Respiratory Cell & Molecular Biology

Prof Torello Lotti
Rome, Italy

Full Professor of the Dermatology and Venereology at University of Studies Guglielmo Marconi, Rome, Italy. He is President of the World Health Academy, Dermatology since 2013. Director , Centro Studi per la Ricerca Multidisciplinare Rigenerativa (CSRMR), of the University of Rome "G.Marconi", Rome, Italy, since 2015.

Prof Alireza Ranjbar
Bonn, Germany

President of the Research Institute for Interventional Allergology & Immunology
Bonn/Cologne, Germany

Prof Vicente Vérez Bencomo
Havana, Cuba

Director, Center for the Study of Synthetic Antigens

International Speakers

Dr Anita Verma
England, UK

Doctor of Medicine
Consultant Microbiologist
Department of Medical Microbiology & Institute
of Liver Studies, King's College Hospital, Founda-
tion, NHS

Prof Ali Harandi
Göteborg, Sweden

Ali Mohaghegh Harandi, MsPh, PhD has a long standing interest in research on vaccines, adjuvants and mucosal immunity. He is currently involved in several EU funded projects related to the molecular signatures of human vaccines and adjuvants as well as characterisation of humoral response to human vaccines.

Dr Paul Bastard
Paris, France

Paul Bastard, M.D., Ph.D., works as a chief resident in the Department of Pediatrics at the Necker Hospital for Sick Children (Paris, France), and does research in the Necker branch of the laboratory of Jean-Laurent Casanova, located at the Imagine Institute (University of Paris and INSERM) and the Rockefeller University (New York, USA).

Dr Behnaz Bayat
Gießen, Germany

Chairperson of International Working Party on Granulocyte Immunobiology, International Society for Blood Transfusion (ISBT) Member of the German Society for Transfusion Medicine and Immunohematology Advisory Member, International Working Party on Granulocyte Immunobiology, International Society for Blood Transfusion (ISBT)

Panel Moderators

**Dr. Seyyed Reza
Raeeskarami**
Scientific Secretary

Dr. Hamidreza Abtahi
Pulmonology

**Dr. Mohammadreza
Abbasi**
Nephrology

Dr. Reza Malekzadeh
Gastroenterology

**Dr. Zahra
Ahmadinejad**
Infectious Diseases

**Dr. Amir Hossein
Emami**
Hematology & Oncology

Dr. Shahriar Nafisi
Neurology

Dr. Jamshid Hadjati
Hematology & Oncology

Dr. Masoud Movahedi
Immunology, Asthma, Allergy

Dr. Alireza Firooz
Dermatology

Dr. Abdolrahman Rostamian
Autoimmune Disorders

Dr. Vahid Ziaei
Autoimmune Disorders

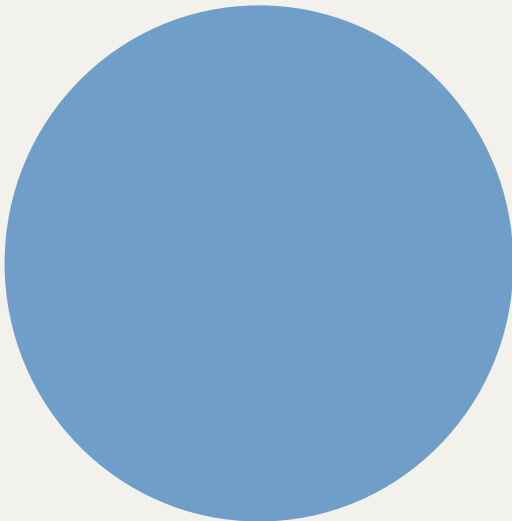

Dr. Ahmad Ali Noorbala
Psychiatry

Dr. Alireza Biglari
Vaccination

Dr. Roya Sattarzadeh
Cardiovascular Diseases

Scientific Committee

Dr. Mohammad Reza Abbasi
